

# Specialist Facials at Beautonics

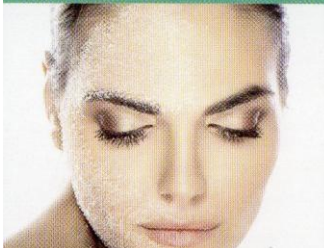

All specialist facials require a **FREE** 15 minute consultation prior to booking an appointment for treatment the first time.

## Resurface and Peel Facial for Ladies and Skin Deep Peel Treatment for Men

Using a complex blend of Glycolic, Salicylic and Fruit Acids to eliminate dead cells, resurface and exfoliate, and smooth and refine. Sodium bicarbonate to deep cleanse, purify and clear congested pores whilst helping to reduce irritation, and Vitamin C which is a potent anti-oxidant, helps to correct skin tone, brighten and clear a dull complexion. Peels although good for mature skin, are also a welcome treatment for anyone suffering with blocked pores, breakouts, acne, pigmentation, uneven skin tone and texture and to generally increase overall skin health and radiance. Great for reducing in-growing hairs too. 45mins.

## Extraction Facials

These are for the removal of blackheads and whiteheads. They involve gently piercing the skin with a sterile needle to aid the extraction. 30mins or 60mins depending on how much extraction is needed.

## Microtone Non-Surgical Facelift

Adhesive pads and hand held probes gently pulse and stimulate the face. At the end of the treatment the facial tissue has been lifted, toned, stimulated to increase collagen and elastin fibres and will feel soft, smooth, refreshed and vibrant. Grey, neglected skins will now look fresh, pink and toned. Depending on the condition, 12-20 sessions will be required and thereafter a maintenance treatment at regular intervals to retain the results achieved. 45mins.

## Microtone Eye and Brow Lift

As with the Non Surgical facelift, hand held probes will gently pulse and stimulate the area all around the eyes and brow. Thus giving younger looking, brighter, more alert, more wide awake eyes. A course of 8 treatments will usually be needed to see improvement. 30mins.

**Ask about our special rates for  
courses of the Peels and Lift Facials.**
